The diagram illustrates several annotations pointing to specific elements in the XML:

- An annotation labeled "The VO-internal IVOID" points to the identifier `ivo://org.gavo.dc/hsoy/q/q`.
- An annotation labeled "A DOI describing the full record" points to the altIdentifier `doi:10.555/fictional-resource`.
- An annotation labeled "An ORCID for an author" points to the creator's ORCID `https://orcid.org/0000-0001-2345-6789`.
- An annotation labeled "A Bibcode to cite" points to the source `2018ivoa.spec.0625P`.
- An annotation labeled "A DOI for VO-external data" points to the relatedResource's altIdentifier `doi:10.555/fi`.
